# Chirag Kumar

**AI Engineer | Agentic AI | Generative AI | AI Automation | MCP**

Pune, Maharashtra, India | +91 9123827700 | kumarchirag682@gmail.com | linkedin.com/in/chirag-kumar-b5818b265

## PROFESSIONAL SUMMARY

AI Engineer with 2 years of experience specializing in Generative AI, Agentic AI, and intelligent enterprise automation. Proven track record of architecting advanced AI-driven solutions and autonomous multi-agent systems for software security remediation, test automation, and complex engineering workflows. Deep hands-on expertise leveraging Model Context Protocol (MCP), Anthropic Claude, CrewAI, and GitHub Copilot to build scalable, cloud-connected agents that eliminate up to 90% of manual overhead and optimize development lifecycles..

## TECHNICAL SKILLS

**Programming Languages:** Python

**Generative AI & Agentic AI:** Generative AI & Agentic AI, LLM Applications, Prompt Engineering, AI Agents, Multi-Agent Workflows

**Mobile and Frontend Frameworks :** Flutter

**AI Frameworks and Platforms:** MCP, GitHub Copilot, CrewAI, Anthropic Claude, Microsoft Copilot Studio, Power Automate, FastAPI

**AI Security & Automation:** OSS Vulnerability Remediation, CodeQL, Microsoft S360, Component Governance, GitHub Advisory, NuGet, NPM

**Cloud & Data:** Microsoft Azure, Azure Data Factory, Azure Databricks, PySpark

**DevOps & Engineering:** Azure DevOps, CI/CD, Git, GitHub

## PROFESSIONAL EXPERIENCE

**AI Engineer, LTM Ltd** | Kolkata, India | O c t o b e r 2024 – Present

***Client: Microsoft***

### AI-Driven Security Remediation & Automation

- Engineered an ADO agent leveraging Component Governance and GitHub Advisory, automating 90% of dependency upgrades and PR generation to resolve critical security vulnerabilities.
- Developed reactive CodeQL remediation agent with Liquid MCP validation, slashing manual patching effort by 85% through automated fixes and testing.
- Streamlined S360 vulnerability management for web endpoints and container images, cutting unaddressed security backlog by 70% via automated live investigation..
- Designed fleet-scale OSS/CodeQL orchestration achieving 85% end-to-end automation from S360 alert intake to PR creation and closure, featuring shared inventory reuse, conflict-safe child sessions, and build/verification gates..

### GenAI Test Automation & LLM Guardrails

- Developed a CrewAI-based Java test-case generation application, automating 90% of test workflows with continuous Maven build validation.
- Implemented Anthropic Claude guardrails with MongoDB and FastAPI, successfully blocking 98% of out-of-scope prompts, jailbreaks, and sensitive data requests.

### AI Audit Agent(LTM Internal)

- Built an AI audit agent processing 100+ pages of PDF and Word design documents, automating 90% of data extraction for structured audit assessments.
- Created a GitHub/VS Code Copilot workflow leveraging MCP to analyze documents and align extracted information with audit mandates, increasing audit completion speed by 90%.
- Automated 85% of manual document review and data entry, streamlining the population of Excel-based audit templates with ownership and implementation details.

### Azure Data & DevOps

- Developed Azure Data Factory and Azure Databricks workflows using PySpark for data transformation following Medallion Architecture, improving pipeline processing speed by 75%.
- Implemented Azure DevOps CI/CD using YAML pipelines, achieving 100% automated workload promotion across Development, QA, and Production environments with zero manual friction.

### Condux - Fleet Managament and Ticketing App

- Developed a cross-platform fleet management and ticketing mobile application using Flutter and Firebase, automating 95% of real-time trip lifecycles, manual fare processing, and payment tracking.
- Built an owner dashboard aggregating live fleet metrics, dynamic route/conductor mapping, and automated transaction reconciliation, reducing operational reconciliation overhead by 80%..

## EDUCATION

**Bachelor of Engineering in Computer Science**
**RMD Sinhgad School of Engineering Pune | Graduated April 2024 CGPA 8.64**

## ACHIEVEMENTS

- **Super Crew Award** – LTIMindtree: Recognized for strong contribution and performance on a client engagement.
- **Pioneer Squad Award** – LTIMindtree: Recognized as part of a high-performing project team for successful project delivery.
